

MonikaGo & MonikaPrime Recommended Usage Guidelines:

Please follow these recommended usage guidelines to get the most from your Monika system safely and continue to benefit from your Lifetime Parts Warranty. Only use MonikaGo for the purpose intended.

Smart PA:

Don't hold PA over a steaming pot while probing

Don't position near a steaming kettle or too close to a hot oven or stove

Do not immerse in water

Do not remove the protective case

Do not use abrasive or harsh cleaning materials

Do not drop – cracked or broken screens are not covered by the Lifetime Parts Warranty. (N.B. The Smart PA features extra tough Gorilla Glass 3 which can withstand more than normal wear and tear).

Smart Bluetooth Probe:

Do not rest the probe handle on a hot pot while probing

Do not attempt to change the batteries

Do not immerse in water

Clean with probe wipes before and after each use

Do not let the probe touch the bottom of the receptacle when probing

Charging Stations:

Ensure leads are not near cooking equipment or water

Clean with wipes only, do not get wet due to electric and electronic parts
